

There is a clear danger of over-centralization of news media conglomerates. When a single broadcaster such as Sinclair, who uses the public airwaves free of charge, can dictate their own political agenda to such a large proportion of the public, our democratic process becomes greatly distorted. Sinclair's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of this assault on our democracy.

Since Sinclair is obligated by law to serve the public interest, we should demand more substantive news about issues that matter, and not biased partisan reporting.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. Please help keep our democracy untainted by such distorted reporting. Thank you.
